

April 11, 2018

Thank you for attending the Public Information Open House for the proposed widening of State Route (SR) 92 from US 41/SR 3/Cobb Parkway to Glade Road, PI Numbers 0006862 and 731865. Our goal is two-fold: 1) to provide you with information on the proposed project since the last public meeting held in July 2008, and 2) to provide an opportunity for you to give us your comments on the proposed project. In this handout package, you will find a description of the project, a map of the project location, and a comment card.

As you enter the room, please take a look at the project displays. Georgia Department of Transportation (Georgia DOT) representatives, wearing name tags, are available to discuss the project and answer your questions. There will be no formal presentation.

We hope you will take the opportunity to tell Georgia DOT what you think. Listed below are several ways to comment on the project. Your comments are important to us, and should you provide comments by one of the methods noted below, we will respond to you in writing usually within the next 30 days. All comments will become part of the project's official record.

While you are attending the open house, you can **provide your comments today** by filling out the comment card provided with this handout and dropping it in the comment box, or you may choose to provide your verbal comments to the court reporter who will transcribe your comments.

You can also **provide your comments by Wednesday, April 25, 2018** by using either of the following methods:

- Online at www.dot.ga.gov/PS/Public/PublicOutreach.
 1. From the *By Project* drop down box menu, select the following project listing:
SR 92 North and click *Go*;
 2. Lastly, click *Comment* and follow the instructions to leave your comments.
- Mail in your comment card to Mr. Eric Duff, Georgia Department of Transportation, 600 West Peachtree Street NW, 16th Floor, Atlanta, Georgia 30308.

The project displays will be available for review for ten days after this open house at the *Public Outreach* page at www.dot.ga.gov, described above. Hard copies will also be available at the Georgia DOT District 7 Office located at 5025 New Peachtree Road Chamblee GA 30341, and the Marietta Area Office located at 1269 Kennestone Circle, Marietta, Georgia 30066. Following the ten-day public comment period, a copy of all comments received will be available by request at the Atlanta address listed above.

Again, thank you for attending this open house. If you should have any questions or need additional information, feel free to contact the GDOT project manager, Perry Black, at 404-631-1224 or the environmental analyst, Zach Adriaenssens, at (404) 347-0615 of the GDOT Office of Environmental Services.

Sincerely,

A handwritten signature in blue ink that reads "Eric Duff".

Eric Duff
State Environmental Administrator
Georgia Department of Transportation

Why We Are Here:

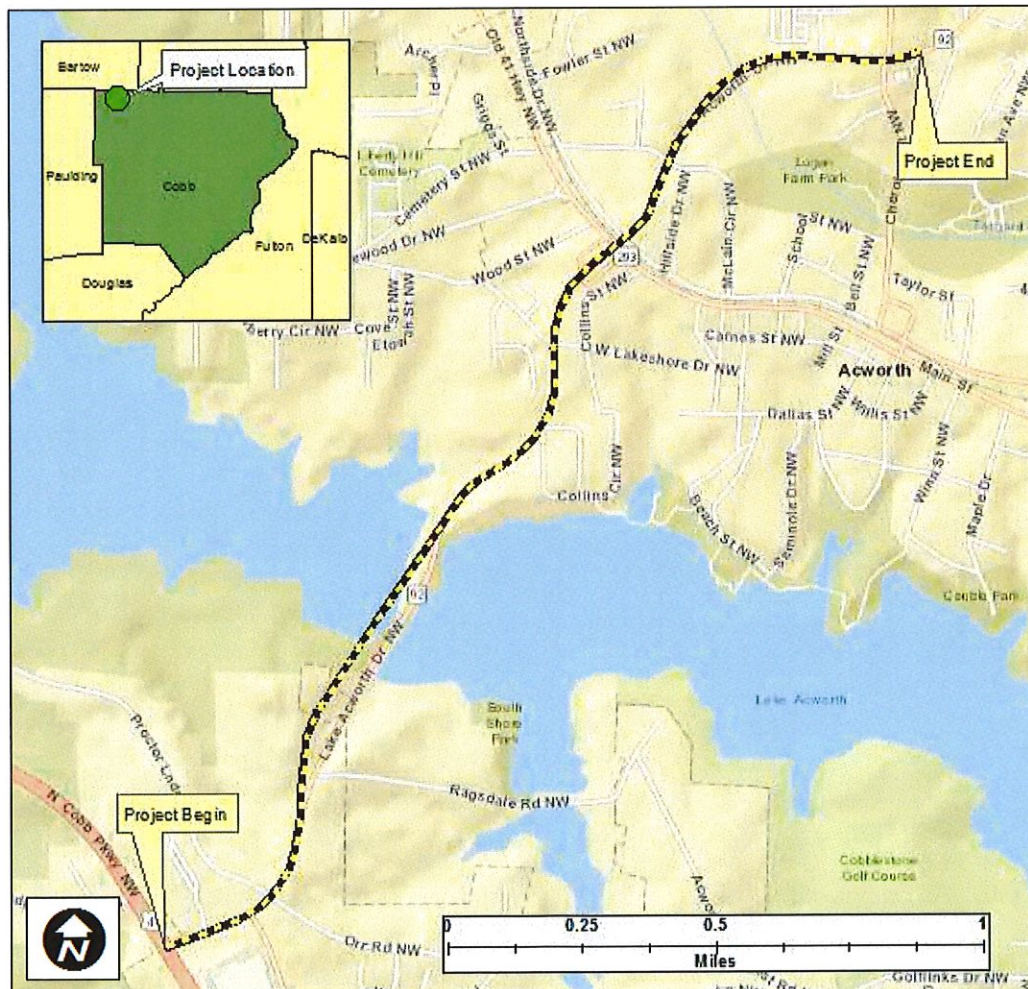

The purpose of the proposed project is to:

- 1) Alleviate traffic congestion; accommodate the need for mobility, access, and goods movement; and to better accommodate future travel demand through the addition of travel lanes and auxiliary lanes;
- 2) Facilitate more efficient and safe operation of SR 92 through the addition of a median which will restrict left turn movements to median openings and, thus, better manage traffic flow;
- 3) Address unsafe driving conditions, such as inadequate stopping sight distance by correction of geometric deficiencies along SR 92, where appropriate/feasible; and
- 4) Provide improved transportation options for the traveling public through the addition of pedestrian and bicycle facilities.

Project Description:

The GDOT Projects P.I. 0006862 and 731865 proposes to widen SR 92/Lake Acworth Drive from US 41/SR 3/Cobb Parkway to Glade Road to a divided 4-lane facility with 11-foot lanes on the inside and 12-foot lanes on the outside, a raised concrete median varying from 8 to 20 feet in width, a 16-foot shoulder with curb and gutter and a 10-foot multi-use trail on the east side of the roadway, and a 12-foot shoulder with curb and gutter and 5-foot sidewalk on the west side of the roadway. Lake Acworth will be spanned by a bridge approximately 1500-feet in length on new location. The proposed right-of-way varies from 100 to 135 feet. Total length of the project is approximately 2.8 miles.
